

How to Succeed in Tough Classes

Thursday, October 4

11a.m. - 12 noon

Klaus 3100

(the conference room by main walkway/elevator)

Panelists:

Estee Amana

Jessica Curry

Nathaniel Davis

Marvin Dungca

Joseph Roberson

Nardis Walker

Do you want to know how to do well in 2025? Is Thermo driving you nuts?
Are you sinking a lot of time into CS 1371?

Come hear experienced students discuss the courses they have taken, what to watch out for, and how to navigate through them. For example, you may be wondering:

- Which courses are most challenging? Which are most interesting/worthwhile?
- What strategies are helpful in doing well in a particular course?
- What are tips for dealing with lab and design project courses?
- What do you look for in a good project/lab partner?
- How do you manage your time?
- How can you avoid being in a pressure-cooker before deadlines?

Bring your questions and listen to the recommendations of students who have taken these courses recently.

We will have food and goodies! Please RSVP by Tuesday Oct. 2 to linda.wills@ece.gatech.edu, so we can get a head count for ordering ahead.

Hope to see you there!
