

# Capture the Flag Competition Fall 2003

## Abstract

The competing teams were given a web site prepared by the organizers. The web site contained a number of undisclosed vulnerabilities. The task of the teams was to find the vulnerabilities, fix them for their copy of the site and exploit the same vulnerabilities to compromise the security of other teams' sites.

## Participants

UCSB

Georgia Tech

Naval Postgraduate School in Monterey

North Carolina State University

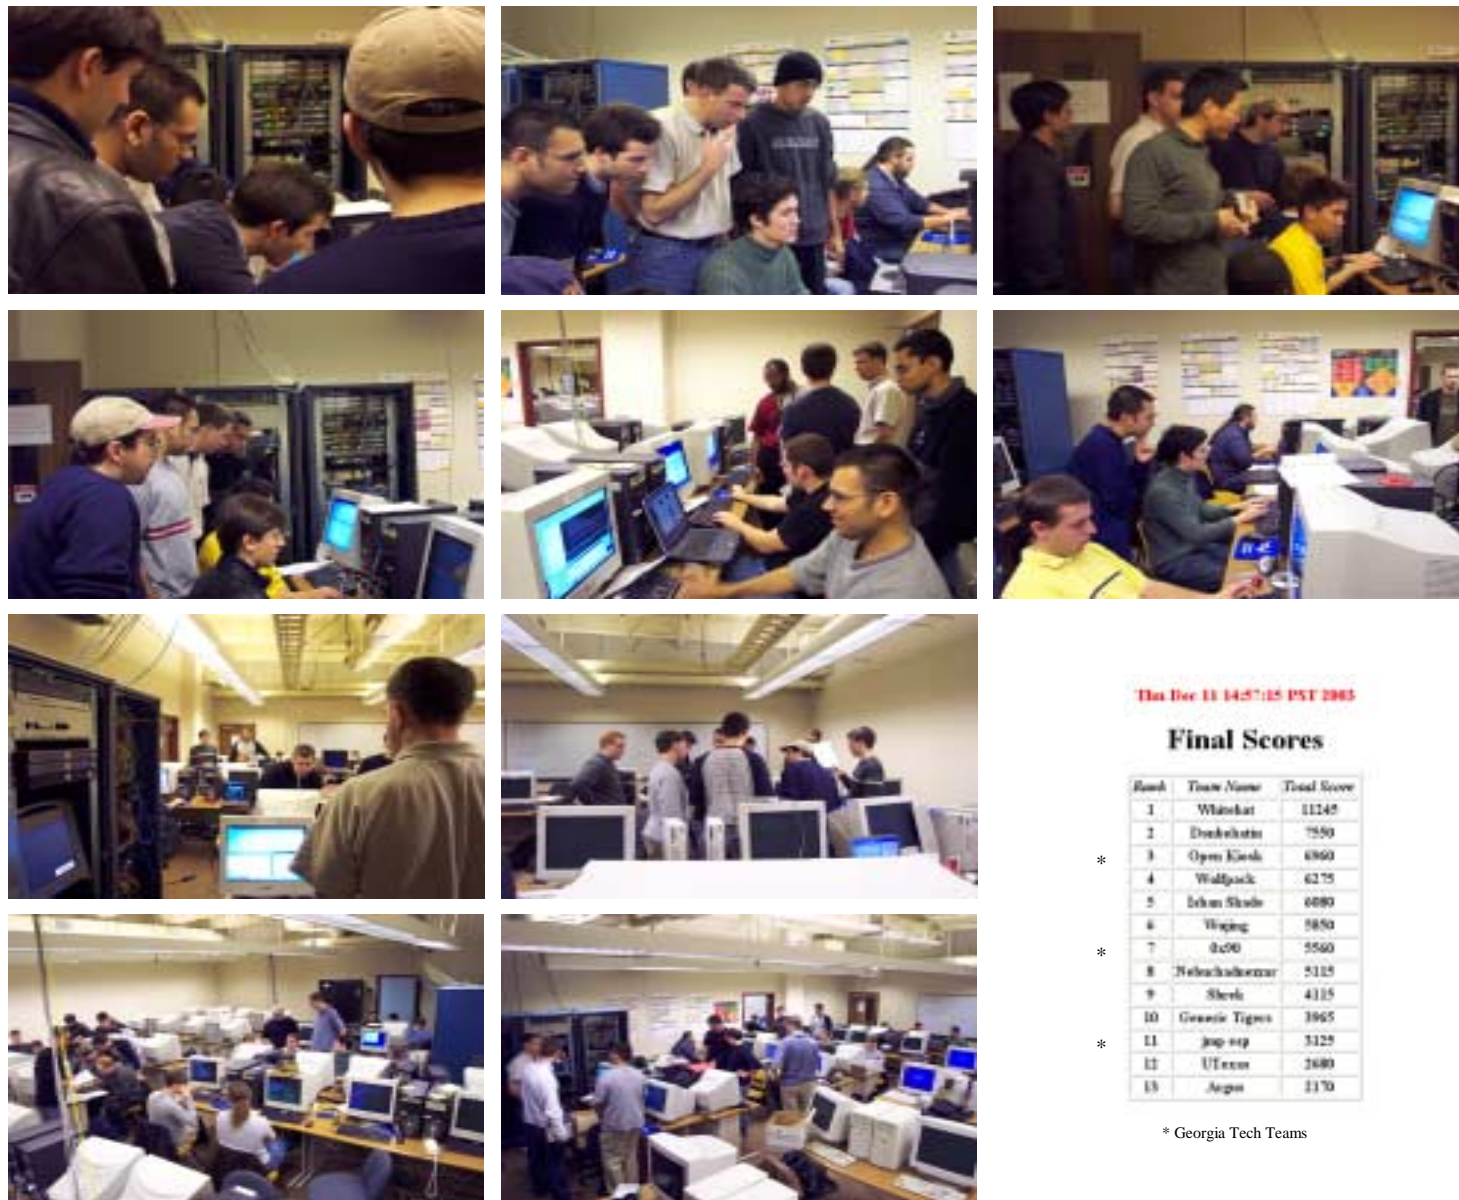

United States Military Academy

University of Texas at Austin

University of Illinois at Urbana-Champaign

## Points

The teams gained points by keeping their web site active and uncompromised and by compromising other teams' sites (that is, "capturing their flag").
