Proposal Grade Sheet
Version: 8/14/00

Group Number/Name: _________________________________________________

_____/10 What is the product you plan to design and prototype?

_____/10 What competitor’s products exist and how will your product differ from theirs?

_____/10 What are the specific building blocks (tasks) of the project and the time line (schedule) for accomplishing these building blocks or milestones? What is the order in which you will accomplish the tasks?

_____/10 How are the tasks divided up and who is assigned what tasks?

_____/10 If there is a Graphical User Interface, what will the screens look like and what information will they display?

_____/10 What are the challenges and anticipated problems of the project in general and the tasks specifically? What is the degree of difficulty and the risk involved in each task?

_____/10 What will you demonstrate at the end of the semester and what will this demo be exactly?

_____/10 What will you need to have supplied to accomplish the project and the demo? What parts, components, number of computers, configuration, etc.?

_____/10 What parts of existing products or code will you use and what will you design and implement?

_____/10 Testing Plan. How will product testing be accomplished?

_____/10 Economics Analysis. How much are other products selling for and how much will it cost to develop yours?

_____/10 Report Format, Clarity, Style

_____/10 Bibliography and web links related to your project

_____/20 Presentation In Class

_____/150 TOTAL
