What do you like about this class and the labs?

Notes are through enough to understand. Too much book help.

What do you dislike about this class and the labs?

The TA's lecture when the teacher is not present.

What could be done to make your education experience in ECE4110 better?

If I had more programming experience.

Are there any topics we have covered so far that think should either not be covered or that we covered too much or too little? Please be specific.

Any other feedback?
What do you like about this class and the labs?

Resources for past exams
Lab partner

What do you dislike about this class and the labs?

The TAs are minimally effective at lecture
Lab TAs aren't available

What could be done to make your education experience in ECE4110 better?

Are there any topics we have covered so far that think should either not be covered or that we covered too much or too little? Please be specific.

Any other feedback?
What do you like about this class and the labs?
I like the class, because it has taught me about the concept of networking. I came in knowing nothing about networking and now I have some grasp over TCP and UDP.

What do you dislike about this class and the labs?

No thing

What could be done to make your education experience in ECE4110 better?

Free pizza

Are there any topics we have covered so far that think should either not be covered or that we covered too much or too little? Please be specific.

No

Any other feedback?

I hope the lab load is reduced.
What do you like about this class and the labs?

It's a fun class. You learn a lot and at the same time, there isn't a lot of pressure. Professor is awesome.

What do you dislike about this class and the labs?

Nothing, more classes should be like this one. Not so much pressure.

What could be done to make your education experience in ECE4110 better?

Free food, maybe.

Are there any topics we have covered so far that think should either not be covered or that we covered too much or too little? Please be specific.

No.

Any other feedback?

Good course, keep it up
What do you like about this class and the labs?

The theory, labs are in tune with the lectures.

What do you dislike about this class and the labs?

Nothing really!

What could be done to make your education experience in ECE4110 better?

Free Pizza every class!

Are there any topics we have covered so far that think should either not be covered or that we covered too much or too little? Please be specific.

More emphasis on describing the code better, as its a programming course.

Any other feedback?
What do you like about this class and the labs?
I enjoy finally knowing how the internet structure works, and being able to write code that operates over the internet.

What do you dislike about this class and the labs?
Sometimes the presentations of code have gotten a bit pedantic.

What could be done to make your education experience in ECE4110 better?
I could get more sleep, and drink more coffee.
If lunch was served in-class, I’m sure I’d concentrate more.

But, realistically, I think things are good.

Are there any topics we have covered so far that think should either not be covered or that we covered too much or too little? Please be specific.
Not really, I’ve enjoyed things so far.

Any other feedback?
I miss Germany.
What do you like about this class and the labs?

Labs are well-instructed and straightforward, class is interesting because the content is useful.

What do you dislike about this class and the labs?

A few too many classes so far have been led by the TA, which isn't a big deal except that he's hard to understand (his accent)

What could be done to make your education experience in ECE4110 better?

More of the advanced topics covered in-depth in class. I already understand most of what's covered in class, but the test goes much more into detail.

Are there any topics we have covered so far that think should either not be covered or that we covered too much or too little? Please be specific.

It wasn't on the test, but covering FTP doesn't seem very useful since there are lots of other lower-level things I'd rather cover, like IPv6 (maybe later?)

Any other feedback?

A fun class overall.
What do you like about this class and the labs?

The instructor maintains interest, explaining and directing to topics of importance. The labs are related to the lecture topics.

What do you dislike about this class and the labs?

The class is fine; however, the labs seem at times tedious and mindless.

What could be done to make your education experience in ECE4110 better?

The labs could be less tedious, work and more in depth with variety of exercises instead of repetitive work.

Are there any topics we have covered so far that think should either not be covered or that we covered too much or too little? Please be specific.

The fact that the IP datagram only has a TCP or UDP header on the first datagram sent was not explicitly stated. Nothing was covered too lightly.

Any other feedback?
What do you like about this class and the labs?

This class teacher explained in detail.

The labs go hand in hand with theory.

What do you dislike about this class and the labs?

What could be done to make your education experience in ECE4110 better?

If you can give some overview of the lab during the theory and what to expect in next lab, that will be useful.

Are there any topics we have covered so far that think should either not be covered or that we covered too much or too little? Please be specific.

Any other feedback?
What do you like about this class and the labs?

The fact that there is a large group of us!

What do you dislike about this class and the labs?

What could be done to make your education experience in ECE4110 better?

Are there any topics we have covered so far that think should either not be covered or that we covered too much or too little? Please be specific.

Papers, Labs

Any other feedback?
What do you like about this class and the labs?

The class and the labs are very informative and thus far has been well designed.

What do you dislike about this class and the labs?

This has nothing to do with the class, but I really do not like when TA's come in when you are out of town. They never explain anything.

What could be done to make your education experience in ECE4110 better?

I like everything, but maybe there can be more student interaction in class.

Are there any topics we have covered so far that think should either not be covered or that we covered too much or too little? Please be specific.

No.

Any other feedback?
What do you like about this class and the labs?

- Dr. Owen's lecture style
- Labs are fun
- 5 minute breaks!

What do you dislike about this class and the labs?

- Frequent good student lectures

What could be done to make your education experience in ECE4110 better?

- Weight labs more in grade
- More connection between lectures and labs

Are there any topics we have covered so far that think should either not be covered or that we covered too much or too little? Please be specific.

Any other feedback?

- Really enjoying the class.
What do you like about this class and the labs?

Class is well taught

What do you dislike about this class and the labs?

The lecturer does not explain clearly, and they do not explain the lab until after they are due.

What could be done to make your education experience in ECE4110 better?

Are there any topics we have covered so far that think should either not be covered or that we covered too much or too little? Please be specific.

Any other feedback?
What do you like about this class and the labs?
I love everything about the class, especially the weekly labs and teaching the class is very informative. The labs also helps in the understanding of the material being taught in class.... The textbooks help a great deal...

What do you dislike about this class and the labs?
Nothing much, except I prefer you (Dr. Ormes) teaching the class instead of the TAs's.

What could be done to make your education experience in ECE4110 better?
Nothing much, It's Fine the way it is!!!

Are there any topics we have covered so far that think should either not be covered or that we covered too much or too little? Please be specific.

Nil

Any other feedback?
Nil
What do you like about this class and the labs?

The topics & materials.

What do you dislike about this class and the labs?

Lectures

What could be done to make your education experience in ECE4110 better?

More exciting lectures.

Are there any topics we have covered so far that think should either not be covered or that we covered too much or too little? Please be specific.

Doing good.

Any other feedback?

Dope.
What do you like about this class and the labs?

Interesting material

What do you dislike about this class and the labs?

What could be done to make your education experience in ECE4110 better?

Are there any topics we have covered so far that think should either not be covered or that we covered too much or too little? Please be specific.

hope

Any other feedback?

hope
What do you like about this class and the labs?

- Doing labs on our time

What do you dislike about this class and the labs?

- Sometimes lecture examples are really dry

What could be done to make your education experience in ECE4110 better?

- Not sure, seems like important stuff that needs to be learned

Are there any topics we have covered so far that think should either not be covered or that we covered too much or too little? Please be specific.

- Telnet is outdated, but I have no good solution

Any other feedback?

- No
What do you like about this class and the labs?
- Shows how real thing happen in life.
- The labs help you to understand and apply the materials in lectures.

What do you dislike about this class and the labs?
- I don't like when TA comes to teach the class.

What could be done to make your education experience in ECE4110 better?

Are there any topics we have covered so far that think should either not be covered or that we covered too much or too little? Please be specific.
- I will like to go over WWW and HTTP. I think I should be able to understand how internet really works.

Any other feedback?
What do you like about this class and the labs?

It's okay not too hard.

What do you dislike about this class and the labs?

Tests hard to expect on what is on there.

What could be done to make your education experience in ECE4110 better?

Review for test.

Are there any topics we have covered so far that think should either not be covered or that we covered too much or too little? Please be specific.

Any other feedback?
What do you like about this class and the labs?

information + useful

What do you dislike about this class and the labs?

nothing

What could be done to make your education experience in ECE4110 better?

nothing

Are there any topics we have covered so far that think should either not be covered or that we covered too much or too little? Please be specific.

too much on TCP transfer

Any other feedback?
What do you like about this class and the labs?

Excellent for people who are serious about networking.

What do you dislike about this class and the labs?

Should include more security and different flavors of Akers.

What could be done to make your education experience in ECE4110 better?

ECE 3076 should be a must.

Are there any topics we have covered so far that think should either not be covered or that we covered too much or too little? Please be specific.

Should include using different flavors of Akers and the effects on network.

Any other feedback?
What do you like about this class and the labs?

This class covers important subjects related to how internet works. The lab just reiterates the lecture and gives hands-on experience that can be applied in real-world.

What do you dislike about this class and the labs?

I think the labs should be more in depth and few more programming labs.

What could be done to make your education experience in ECE4110 better?

I think a final project can enhance the learning experience.

Are there any topics we have covered so far that think should either not be covered or that we covered too much or too little? Please be specific.

I think the topics covered are essential to understanding internetworking.

Any other feedback?

Good class for students like myself interested in networking.
What do you like about this class and the labs?

The class is very informative and the labs are straightforward.

What do you dislike about this class and the labs?

I don't like "substitute lecturers" because they just read the notes and I don't learn anything. Also, I feel that I don't learn much from the labs.

What could be done to make your education experience in ECE4110 better?

Eh... I think I'm learning a lot, actually. I would prefer if the labs required (greater understanding of the material), but I'm not sure how to accomplish that.

Are there any topics we have covered so far that think should either not be covered or that we covered too much or too little? Please be specific.

The only things I don't feel we've covered well are FTP and the web, but we just talked about them, so they probably haven't sunk in yet.

Any other feedback?
ECE4110 Internetwork Programming
Mid-Course Survey
Fall 2004

What do you like about this class and the labs?

The hands on learning in lab is great.

Let's TA's are great.

What do you dislike about this class and the labs?

What could be done to make your education experience in ECE4110 better?

Maybe move a bit quicker.

When TA's lecture they often finish very quickly perhaps they could add in more material.

Are there any topics we have covered so far that think should either not be covered or that we covered too much or too little? Please be specific.

Any other feedback?
What do you like about this class and the labs?

Great hands-on experience.

What do you dislike about this class and the labs?

Tests.

What could be done to make your education experience in ECE4110 better?

Could have projects.

Are there any topics we have covered so far that think should either not be covered or that we covered too much or too little? Please be specific.

None.

Any other feedback?

Great class.
