Write a minimum one-page summary of the legal aspects of computer “hacking”. Be sure to address in your summary at least the following questions:

1) Is scanning a network or computer illegal?
2) What are the School of Electrical and Computer Engineering/Georgia Institute of Technology policies/rules/regulations on scanning?
3) What laws apply to “hacking”, what is illegal, what are the penalties?
4) What are the School of Electrical and Computer Engineering/Georgia Institute of Technology policies/rules/regulations on hacking?

Hint: see [www.cybercrime.gov](http://www.cybercrime.gov)
